Subject: Planned Activities for AllenCo for the Week of November 5th

All,

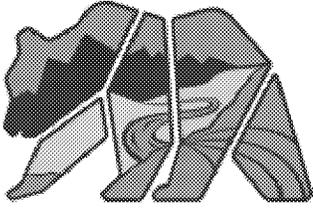

AllenCo plans on conducting the following activities the week of November 5th:

- Technicians will be walking around the facility and taking inventory of all potential leak points such as orifices and valves and tagging them with bar coded labels. This is for AQMD inventory regarding potential fugitive emission locations. AQMD does not consider the injection line relative to fugitive emissions but AllenCo chose to include it as well since it has clamps and that is a potential leak point.
- Technicians will be walking around the facility for the purpose of creating Process and Instrumentation Diagrams (P&IDs).

No valves will be opened during these activities.

2 technicians will be on location for 2-3 days.

Regards,

Scott Walker, PE

Senior Oil and Gas Engineer, Supervisor
Division of Oil, Gas, and Geothermal Resources
Southern District

California Department of Conservation

5816 Corporate Ave, Suite 100, Cypress, CA 90630
